The Ultimate High Definition Imaging Elements Library Introduced By Blastwave FX

Las Vegas, NV – April 14, 2007: At NAB 2007, critically acclaimed Sound Designer Ric Viers announces the **release of his 100th sound effects library** entitled **Blastwave™**. Released by Blastwave FX, Blastwave™ represents the **new wave in high definition imaging element sound libraries**. Billed as the most comprehensive high definition imaging elements library created to date, Blastwave catalogs **2,500 effects**, comprising over 7 hours of sounds onto one dual-layer DVD. This includes **300 5.1 Surround Sound Elements**.

The Blastwave library is organized into 8 primary categories:

- Production Elements
- Logos
- Drones
- Distortions
- Low Frequency Effects
- Musical Elements
- Compositions
- 5.1 Surround Sound

Each sound was **originally recorded at 24 bit 96k** to ensure the highest quality for today's production needs then **delivered as 24 bit 48k broadcast .wav files**. In addition to 2,500 high definition stereo .wav files and 5.1 Surround Sound files, Blastwave includes 2,500 .mp3 files of the same effects for easy referencing and previewing.

Blastwave is a **Click N' Drag™ library**. That means that the entire collection can be clicked and dragged onto any hard drive and is conveniently cataloged with **embedded metadata** for easy search and retrieval in **Pro Tools, AVID, SoundMiner, NetMix, iTunes** and other popular sound library search engines. This incredible collection is ready to use right out of the box. No more long searches, ripping, editing, or settling for close enough. With Blastwave, audio professionals can get instant access to the highest quality imaging elements for any type of production.

Blastwave FX

For Immediate Release

Blastwave was designed by producers and sound designers from the acclaimed Detroit Chop Shop, headed up by Ric Viers, who has worked on 99 sound effects libraries in the past decade. During his professional career, Viers has established himself as **one of the largest independent producers of sound effects in the world.**

Blastwave will be **released on May 14, 2007**, and will be available through **www.blastwavefx.com** for an **introductory price of \$749**. Pre-orders are being taken at this year's NAB conference in Las Vegas. More information on Blastwave FX and the Blastwave Imaging Elements Library can be found at: **www.blastwavefx.com**.
