

Blastwave FX Announces Podcaster 2: A New Addition to the Microwaves Series

500 Web-ready Sounds on DVD, Optimized for Search

Detroit, MI – Aug. 1, 2008: Blastwave FX (<http://www.blastwavefx.com>), developer of next-generation HD sound effects libraries, announced the release of **Podcaster 2 – a high definition MP3 sound effects library** specifically designed for podcasting and virtual media. **Blastwave FX provides podcasters and virtual media producers with a complete collection** of music, sound effects and imaging elements in this collection of **500 sounds**.

Podcaster 2 includes four comprehensive categories:

- Beats
- General Sound Effects
- Production Elements
- Multimedia Elements

Every sound was **fully produced at 24/96** to ensure the highest quality for today's production needs, then **delivered as stereo MP3 files**, making your audio productions easy to produce and manage.

Podcaster 2 is part of an **exclusive product line** from Blastwave FX called **Microwaves**. Like all of Blastwave FX's high definition effects libraries, Microwaves' sounds are cataloged with **enriched embedded metadata** for easy search and retrieval in **Pro Tools, AVID, SoundMiner, NetMix, iTunes** and other popular sound library search engines. Blastwave FX's Podcaster 2 allows **instant access to the highest quality sound effects** for the innovative and ground-breaking web producers of today.

Podcaster 2 is available now www.blastwavefx.com for an **introductory price of \$59**. More information on Buzzsaw and other libraries can be found at: www.blastwavefx.com.

For **Press Inquiries**, contact Laura Sinnott via phone (+1 313 887 0370 x 4) or email (laura@blastwavefx.com)

Distribution and licensing inquiries should be directed to Blastwave FX's master distributor, [Pro Sound Effects](#).

About Blastwave FX

Blastwave FX (www.blastwavefx.com) develops next-generation HD sound effects libraries for professional audio production. Our design and engineering teams push the sound envelope with innovative product formats, rich metadata, multi-channel libraries and the highest resolution audio that technology allows. Blastwave FX libraries, including our flagship Sonopedia™, serve as a royalty-free creative resource for audio professionals worldwide in post, broadcast, film, television, video games, animation, radio, new media and beyond. Blastwave FX is based in Detroit, MI and is headed by Ric Viers, author of *The Sound Effects Bible* (MWP).
